WE STAND READY.

The 610th Security Forces Squadron provides **top-notch readiness training** for immediate and effective results during contingency operations worldwide.

Mission

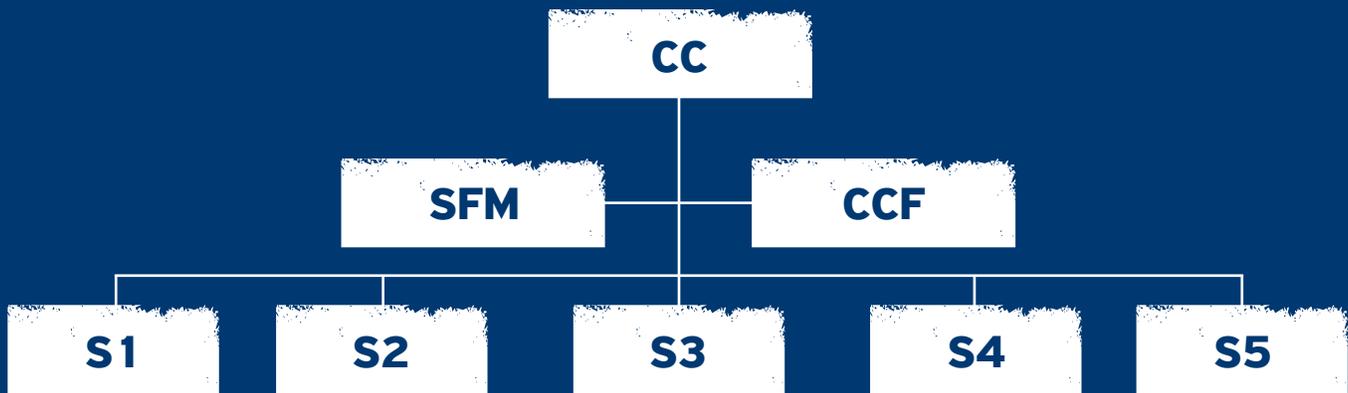

History

Conceived and implemented by Colonel, then Major, Mike Mungavin the 610th Security Forces Squadron began life as part of the 10th Air Force staff at Bergstrom Air Force Base, TX. Though originally designed to meet the training requirements for Reserve Security Forces, the 610 SFS has also been proud to provide training to a variety of other AFSCs as the need arose. Throughout several designations and locations the unit has remained a part of 10th Air Force and has stayed true to the unit motto **“Safe, Quality Training with a Positive Attitude.”**

Unit Designations

- **1990 – 1995**, AFRES GROUND COMBAT READINESS CENTER (GCRC), Bergstrom AFB, Texas.
- **November 1995**, Re-designated as 610th SECURITY POLICE SQUADRON at Bergstrom AFB, Texas.
- **June 1996**, Re-located to NAS JRB Fort Worth, Texas.
- **July 1997**, Re-designated as 610th SECURITY FORCES SQUADRON at NAS JRB Fort Worth, Texas.

610TH SECURITY FORCES SQUADRON

CC Commander of the organization, the driving force responsible for mission readiness, quality of force and training needs conducted on behalf of the Air Force Reserve Command (AFRC/A7S).

SFM The Security Forces Manager is the right hand of the commander responsible for all matters enlisted. The duties of the SFM encompass manpower, enlisted force management, and mentorship for the force.

S1 The unsung hero's of the squadron responsible for all administrative and personnel support for the squadron. This outstanding support includes but is not limited to; orders production, MILPDS products, travel voucher and pay issues. The smallest section with the largest impact.

S2 A multi-faceted section which is tasked with unit level Anti Terrorism (AT) functions as well as managing the OPSEC and COMSEC programs. As well as unit level programs, the S2 section also conducts AT Level II and Active Shooter training courses both of which provide valuable classroom and hands-on training designed to better equip our forces to protect themselves and others.

S3 The Operations section is the largest in the squadron which contains internal unit level training as well as instructor teams trained, equipped, and designed for conducting external training venues such as Patriot Defender. Know for it's ability to quickly and professionally design, implement, and execute training venues, the S3 section has long been known, both within and without AFRC, as a quality "can-do" Cadre.

S4 The logistical heart of the squadron, responsible for meeting the support and equipment needs for the thousand plus personnel trained annually, in addition they are also responsible for the equipment monitoring, procurement of, and "Ready To Go" status for 63 UTCs. Equally important is the attention to detail they provide to assigned vehicle fleet required to meet unit and AFRC training needs. These vehicles range from Polaris 4x4 Rangers to Mine Resistant Ambush Protected (MRAP) vehicles.

S5 The unit's Plans and Programs as well as the Training and Development (T&D) function both reside within this section. You will find the T&D element focused on not only developing new course curriculum but ensuring the currency and relevancy of the existing course content.

CHOOSE YOUR SERVICE

- Antiterrorism Office (ATO) Level II
- Active Shooter Response Training (ASRT)
- Combat Arms Maintenance (CAM)
- Combat Skills Orientation (CSO)
- M240B Crew Served Qualification
- M249 Automatic Rifle Qualification
- Patriot Defender (PD)

**COURSE
GUIDE**

Patriot Defender (PD)

TITLE: Patriot Defender (PD) Course

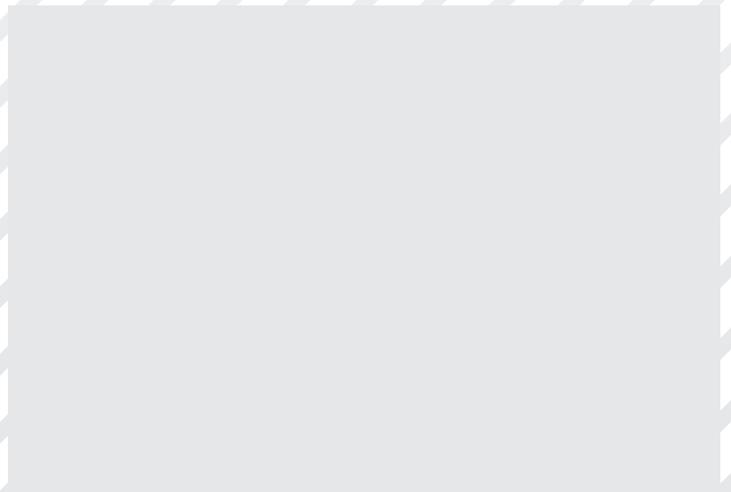

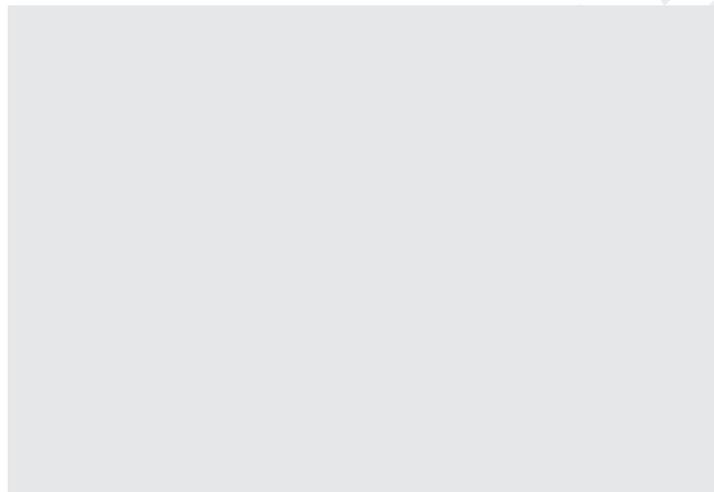

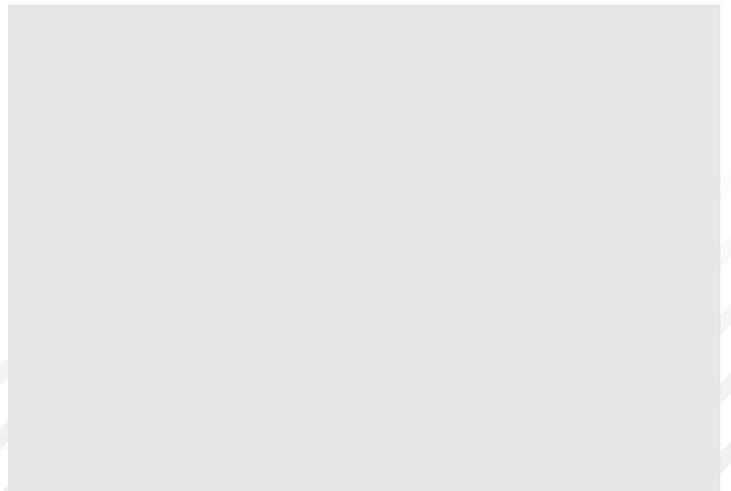

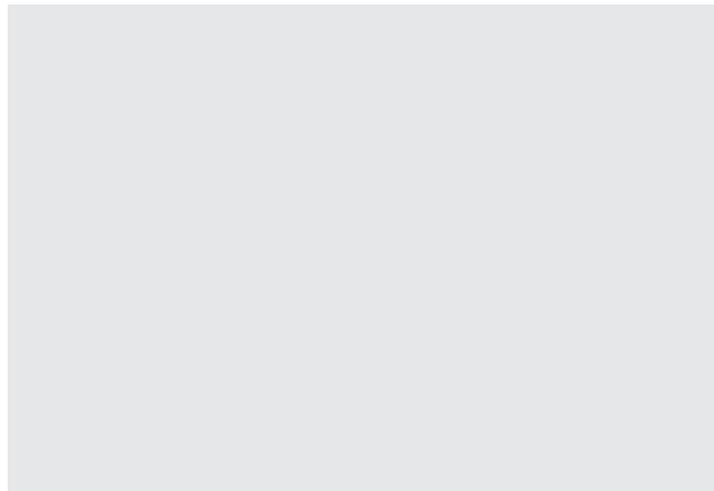

OVERVIEW: This unique concept of training provides Air Base Ground Defense training as outlined in AFI 36-2225 and in accordance with guidance from the Air Force Security Forces Center. This training meets both sustainment training and Base Security Operations pre-deployment requirements in accordance with AFI and Air Force Security Forces Center. Patriot Defender is designed to reinforce and enhance acquired skills, concepts and principles of Air Base Defense in a threat environment. Upon completion, attendees will be equipped with the knowledge and skills needed to defend an air base at home or deployed utilizing the principles of integrated defense.

LOCATION: Fort Wolters, Mineral Wells, Texas.

TARGET AUDIENCE: Security Forces personnel requiring pre-deployment or sustainment training.

NUMBER OF ATENDEES: Minimum: 88; Optimum: 150; Maximum: 180.

LENGTH: Sixteen (16) Days.

Combat Skills Orientation (CSO)

TITLE: Combat Skills Orientation (CSO) Course

OVERVIEW: CSO is an AFRC/A30 and 610 SFS training effort designed to provide a logical progression of trainee skills and tasks selected to develop a proficiency in common ground combat skills for non-Security Force personnel as designated by AFRC/A30 and IAW AMCI 10-202V4. This course prepares personnel to effectively plan, coordinate, supervise and conduct organic security and defensive operations of their personnel and critical resources in support of contingency and wartime missions. This course also develops motivation, confidence, and proficiency in combat survivability, to include individual and team tactics which enhances the reservist's ability to become an effective contributor to organizational or base-level defensive efforts.

LOCATION: Fort Wolters, Mineral Wells, Texas.

TARGET AUDIENCE: Non-Security Force personnel as designated by AFRC/A30.

NUMBER OF ATTENDEES: Minimum: 30; Optimum: 34; Maximum: 40.

LENGTH: Eight (8) Days.

Active Shooter Response Training (ASRT)

TITLE: Air Force Reserve Command (AFRC) Active Shooter Response Training Course

OVERVIEW: The AFRC Active Shooter Response Training course is designed to provide law enforcement personnel with the training and skill sets required to respond to and neutralize an active shooter situation. The course utilizes training, techniques, and principles associated in an active shooter situation as well as the Advanced Law Enforcement Rapid Response (ALERRT) curriculum, which results in ALERRT recognized basic active shooter training certification. This course is designed for front line law enforcement officers with varied levels of experience.

LOCATION: Various.

TARGET AUDIENCE: Security Forces (SF) personnel assigned to AFRC Installations with Base Operating Support (BOS) responsibilities. These are SF personnel who are members of the base police/security function routinely placed on the duty roster.

NUMBER OF ATTENDEES: Minimum: 10; Optimum: 20; Maximum: 25.

LENGTH: Two (2) Days.

Combat Arms Maintenance (CAM)

TITLE: Combat Arms Maintenance Course

OVERVIEW: The overall objective is to provide Air Force Command Combat Arms personnel with a heavy weapons skill set necessary for effective unit and direct support maintenance on the M249 AR, M240B, M2 and MK19 Machineguns with emphasis on contingency operations.

LOCATION: 610th Security Forces Squadron, NAS JRB Fort Worth, Texas.

TARGET AUDIENCE: Open to all 3POX1-B and SEI 312 personnel.

NUMBER OF ATENDEES: Minimum: 6; Optimum: 10; Maximum: 12.

LENGTH: Five (5) Days.

M240B Crew Served Qualification

TITLE: M240B Crew Served Qualification

OVERVIEW: Designed to provide Air Force personnel the skills and training to ensure on-target and effective M240B machinegun fire in order to prosecute threats to personnel and resources. Training is provided for both initial and recurring M240B Machine Gun Crew Served Qualification.

LOCATION: *Classroom:* 610th Security Forces Squadron, NAS JRB Fort Worth, Texas. *Range:* Camp Bowie, Brownwood, TX.

TARGET AUDIENCE: Security Forces, Red Horse, and Explosive Ordnance personnel required to receive or maintain qualification on the M240B machinegun.

NUMBER OF ATTENDEES: Minimum: 10; Optimum: 15; Maximum: 20.

LENGTH: Four (4) Days.

M249 Automatic Rifle Qualification

TITLE: M249 Automatic Rifle Qualification

OVERVIEW: Designed to provide Air Force personnel the skills and training to ensure on-target and effective M249 machinegun fire in order to neutralize threats to personnel and resources. Training is provided for both initial and recurring M249 Machine Gun Qualification.

LOCATION: *Classroom:* 610th Security Forces Squadron, NAS JRB Fort Worth, Texas. *Range:* Camp Bowie, Brownwood, TX.

TARGET AUDIENCE: Security Forces, Red Horse, and Explosive Ordnance personnel required to receive or maintain qualification on the M240B machinegun.

NUMBER OF ATTENDEES: Minimum: 10; Optimum: 15; Maximum: 20.

LENGTH: Three (3) Days.

Tactical Automated Security System (TASS)

TITLE: Tactical Automated Security System (TASS) Course

OVERVIEW: Provides information and hands-on experience in the operation, programming, and employment of TASS annunciators and sensors including fiberoptic sensor installation, and assessment devices. In addition, the course provides information and hands-on experience with trouble-shooting and contractor logistic support procedures for malfunctioning equipment. This course will train the attendees to the Special Equipment Identifier (SEI) 323 administrator level.

LOCATION: 610th Security Forces Squadron, NAS JRB Fort Worth, Texas.

TARGET AUDIENCE: Prospective TASS administrators E-7 and below.

NUMBER OF ATTENDEES: Minimum: 6; Optimum: 10; Maximum: 12.

LENGTH: Eleven (11) Days.

Radio, Telephone Operator (RTO)

TITLE: Radio, Telephone Operator (RTO) Course

OVERVIEW: Course provides information and hands-on experience in the programming, employment, operation, encryption, and trouble shooting of the AN/PRC-152 Multiband Handheld Radio, AN/PRC-117 Manpack Radio, AN/VRC103 Vehicle Adapter, and all required radio accessories. In addition, the course provides information and hands-on experience in the employment of effective RTO protocols and procedures.

LOCATION: 610th Security Forces Squadron, NAS JRB Fort Worth, Texas, Plus Mobile Training Team Capable.

TARGET AUDIENCE: Radio, Telephone Operators (RTO) and Unit Training NCO.

NUMBER OF ATTENDEES: Minimum: 8; Optimum: 15; Maximum: 18.

LENGTH: Five (5) Days.

Antiterrorism Officer (ATO) Level II

TITLE: Air Force Reserve Command (AFRC) Antiterrorism Officer (ATO) Level II Course

OVERVIEW: The Antiterrorism Officer (ATO) Level II training program is designed to teach personnel concepts and principles of Force Protection in a terrorist threat environment. Upon completion of the course, attendees will be qualified to serve as an Antiterrorism Officer (ATO) to their wing/base/squadron/senior leadership at home station or when deployed. They will be responsible for managing the Antiterrorism Program for their unit. It is also a train the trainer program. Personnel completing the course are qualified to provide annual and pre-deployment Antiterrorism Awareness Level I Training.

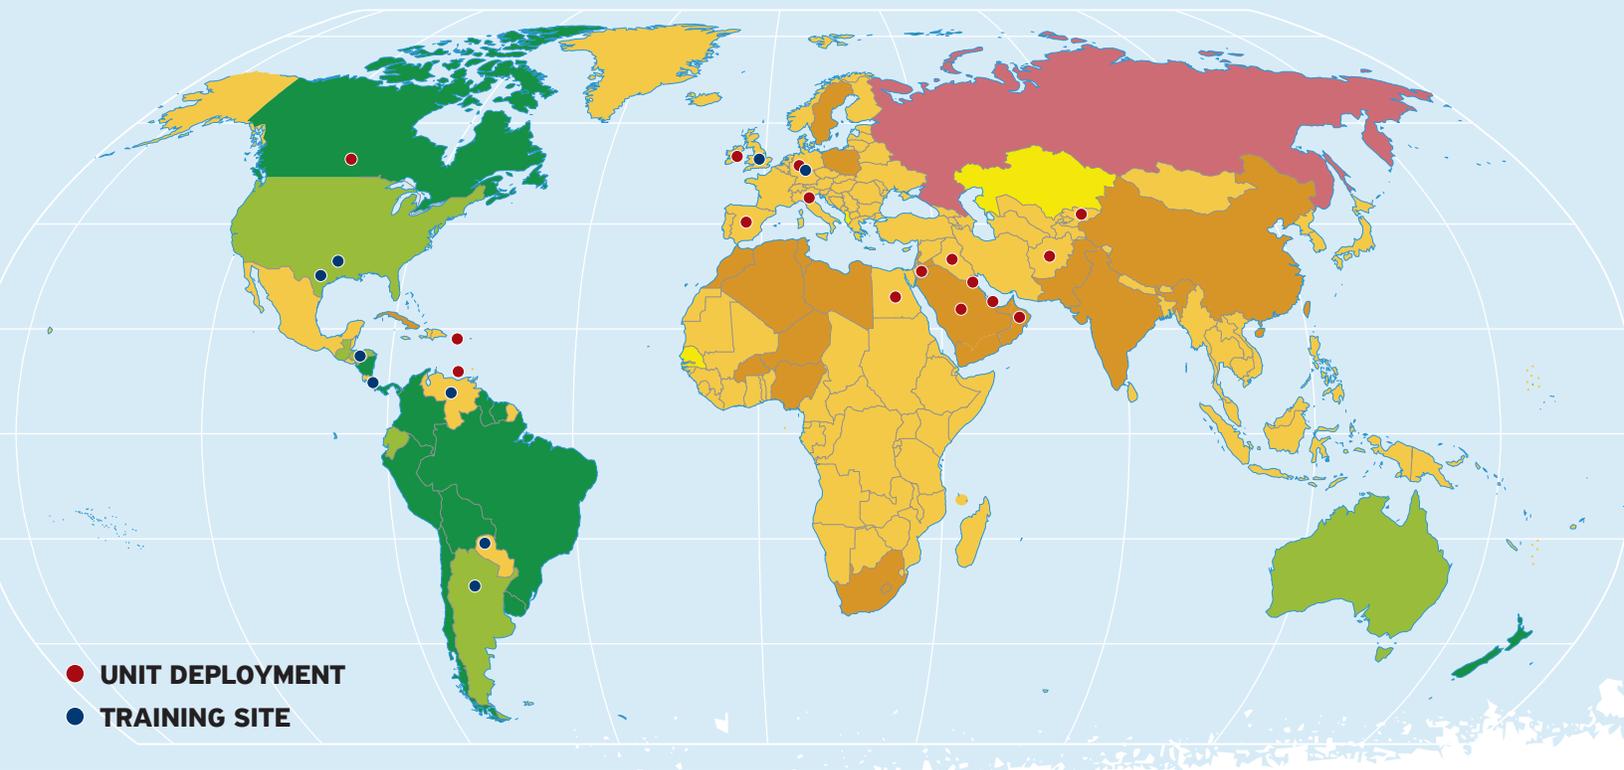

LOCATION: Various.

TARGET AUDIENCE: Individuals that will serve as primary or alternate Antiterrorism Officer (ATO) to their Wing, Group, Squadron and/or Senior Leadership at home or when deployed, Individuals who provide Antiterrorism Awareness Level I Training, primary members of the Threat Working Group (TWG) or Antiterrorism Working Group (ATWG) and individuals identified to assist in local Vulnerability Assessment (VA) of their Installation.

NUMBER OF ATTENDEES: Minimum: 20; Optimum: 30; Maximum: 50.

LENGTH: Four (4) Days.
